

Hevaon ICE

REVOLUTIONARY MESOTHERAPY DEVICE,
DESIGNED EXCLUSIVELY TO SOLVE PAIN AND LIQUID LEAKAGE PROBLEMS

TRENDY AND AVANT-GARDE ROUND DESIGN MAKES THE COLD
INSTRUMENT NO LONGER RIGID AND INDIFFERENT

Fashion color matching attracts customers at first sight, eliminating resistance to mesotherapy treatments

PAIN-RELIEF CUTTING-EDGE TECHNOLOGY 1 ICE POINT PAIN RELIEF

World's first design combining mesotherapy injection with simultaneous ice compress
Compared with the lag of traditional procedures that apply ice compress after mesotherapy
Realizes simultaneous ice compression, skin repair and pain relief

PAIN-RELIEF CUTTING-EDGE TECHNOLOGY 2 AI NEGATIVE PRESSURE PAIN SOOTHING

The negative pressure automatically adjusts suction in real time at different injection stages
Realizes active adaptive adjustment between negative pressure suction and skin pain sensation
Relieve pain through vacuum negative pressure suction

ADVANCED TECHNOLOGY FOR PREVENTING LEAKAGE 1 GERMAN HIGH-POWER MOTOR TECHNOLOGY

Easily inject both thick and thin skincare essences
Fundamentally solve the problem of difficult injection and infusion

ADVANCED TECHNOLOGY FOR PREVENTING LEAKAGE2 PULL BACK REFLUX TECHNOLOGY

When injection is blocked by skin resistance
The PULL BACK technology recovers residual essence to avoid liquid leakage and material waste

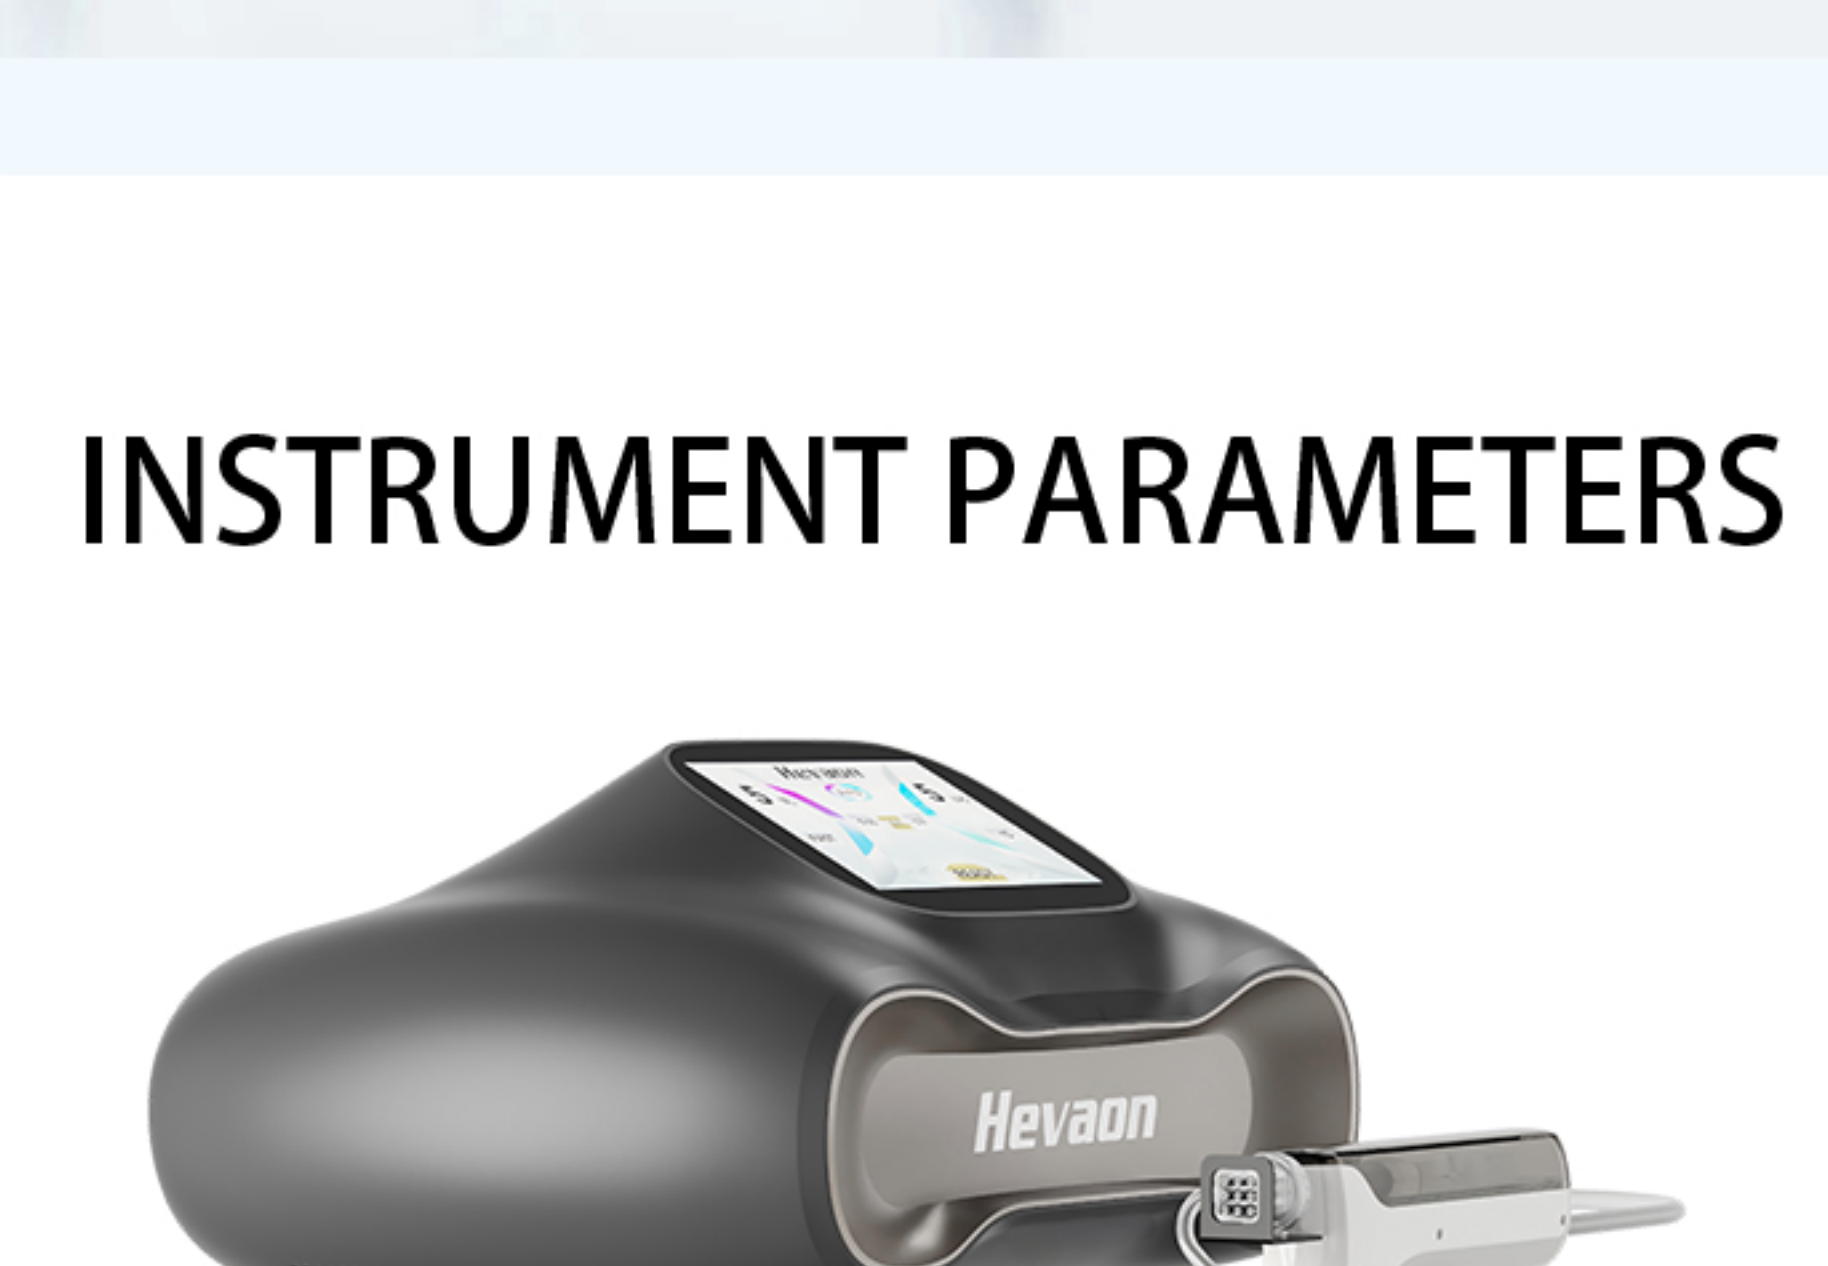

ADVANCED TECHNOLOGY FOR PREVENTING LEAKAGE 3 AI FREQUENCY CONVERSION VACUUM TECHNOLOGY

Negative pressure adjusts intelligently in real time according to injection progress
Firmly fits the skin via negative pressure to completely prevent essence leakage

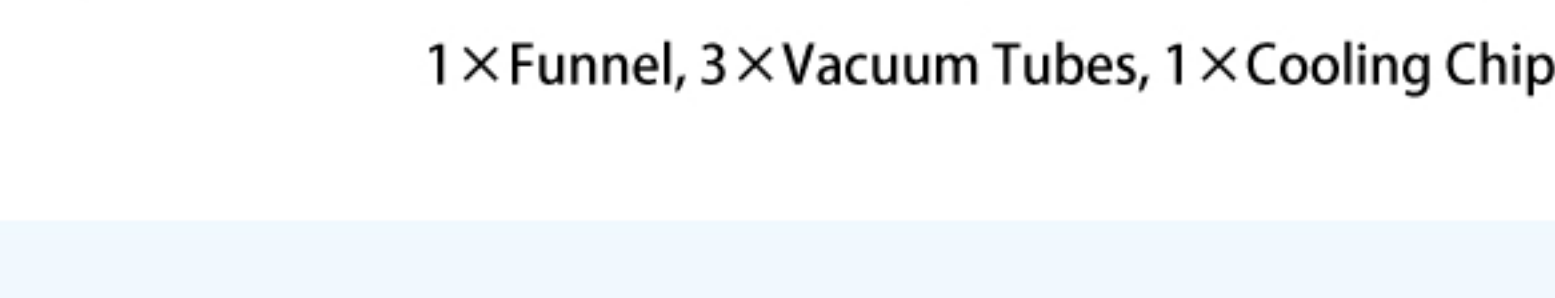

INSTRUMENT SAFETY

The instrument has an inspection and testing report and complies with the national standards:
GB 4706.1-2005 Household and Similar Electrical Appliances - Safety - Part 1: General Requirements
GB 4706.15-2008 Household and Similar Electrical Appliances - Safety - Particular Requirements for Skin and Hair Care Appliances

INSTRUMENT PARAMETERS

Power Supply: 110-220V 50/60Hz

Gross Weight: 4KG

Materials: ABS, Aviation Aluminum, Silicone

Power: Max 86W

Host Dimensions: 45 × 31 × 20cm

Ingress Protection Rating: IPX2

Package Contents: 1 × Main Unit, 1 × Handpiece, 1 × Power Adapter,
1 × Funnel, 3 × Vacuum Tubes, 1 × Cooling Chip
